Spoken English

At the Cambridge English Academy we focus on speaking English. Our aim is to help you speak English naturally. We will help you understand native-English speakers when they speak very quickly – as we often do – and to make yourself easily understood in English. All four skills – Reading, Writing, Listening and Speaking – are valuable skills to practice when you learn English but experience tells us that what you need to develop first are your speaking skills – just like you learned your own language. We teach all our General English Classes (but no exam classes) by a method which focuses on Speaking English. In the class, the teacher, through speaking, will explain new vocabulary and grammar and then get you practice the new material by speaking yourself.

Get corrected as you speak

As you speak, the teacher will correct your pronunciation, grammar, vocabulary and syntax. There is a little reading and writing in our English Classes but the main focus is on **Listening** to good quality English and **Speaking** yourself.
